ERP System	Celia Cai	Jan 13, 2021	April 20, 2021	100%	View the following document for the project deliverables: https://docs.google.com/document/d/1Tnzo3maPdEC8O5BleQRla99uJimfhGTA9ye2JnSqTY/edit	View the following document for the scope and minimum requirement of the project: https://docs.google.com/document/d/1a7AbEKoKOJlpJtZ2wHKtrLEMITvwd_1VaWwLZQVCw4/edit

Sprint #	Min Requirement / Category	User Story / Sub-Category	Task Description	Start Date	End Date	Duration (Days)	Assignee(s)	Status	Comments		Status Legend
1	[8] The system should allow only registered users to access the information, possible with different accesses for different roles.	[8.1] As an IT Personal, I want to be able to create accounts for all the different types of users, so that each department has the correct type of access to the ERP system.	Create and edit different accounts as an IT user	26/01/2021	02/02/2021	7	Piravien Suntharalingam, Pasha Pishdad	Complete			Complete
		[8.2] As an ERP user, I want to login securely, so that I can access the appropriate interface without putting my credentials in jeopardy.	Login securely (password encryption)	20/01/2021	25/01/2021	5	Piravien Suntharalingam	Complete			In Progress
2	[1] The system must allow defining products: sizes (18, 21, 26, etc), colors, finishes (matt, chrome, etc), grades (aluminium, steel, carbon, etc) etc.	[1.1] As the product manager, I want to be able to set the specifications of bikes in terms of size, color, finish and grade, so that the customer has a specific scope of bike options to choose from.	Create UI for bike creation	16/02/2021	18/02/2021	2	Pasha Pishdad	Complete	Also includes subuser stories 1.1.1 to 1.1.3		
			Create a bike database to store bike specifications (size, color, finishes, grade, etc)	17/02/2021	20/02/2021	3	Julien Xu	Complete			
			Add the production manager user and routing to display the related page after logging in	20/02/2021	22/02/2021	2	Pasha Pishdad	Complete			
	[2] The system must allow creating, editing, and tracking material lists, which define what other parts are needed to assemble/create a product. A part itself may have its own material list. For example, a bike Seat is itself composed of a Rawhide Ornament, Springs, Frame, etc.	[2.1] As the inventory person, I want to edit and track the list of necessary bicycle materials, so that I know what materials I need to create a bicycle or a part of a bicycle.	Create UI	13/02/2021	15/02/2021	2	Muhammad Shah Newaz	Complete			
		[2.2] As the product manager, I want to create the list of necessary bicycle materials, so that I know what materials I need to create a bicycle or a part of a bicycle.	Create UI	13/02/2021	15/02/2021	2	Armando Mancino	Complete			
			Create BikeParts database	17/02/2021	20/02/2021	3	Julien Xu	Complete			
			Create Materials database	17/02/2021	20/02/2021	3	Julien Xu	Complete			
			Research on bike materials and parts	12/02/2021	13/02/2021	1	Daniel Gauvin	Complete	You also need to add the researched mats/parts into the DB. Create a Seeder for that so that we can all auto-add the mats/parts to our own instance of the DB		
	[3] The system must allow tracking inventory, which contains the numbers of things in the plants available and necessary to create parts and products. The inventory depends on a location, current orders, backlogs, forecast of production, etc.	[3.1] As an inventory guy, I want to add the available quantity of each listed part, so that the manufacturing worker can know the quantity available of certain parts.	Add functionality to the "Add Bicycle" button. When the form to add a bicycle is sent, a new bicycle with its specifications (including its quantity) should be displayed	20/02/2021	23/02/2021	3	Michael Lee	Complete	When parts are low, the corresponding cell will become red, else, it will be green		

Sprint #	Min Requirement / Category	User Story / Sub-Category	Task Description	Start Date	End Date	Duration (Days)	Assignee(s)	Status	Comments		Status Legend
		[3.2] As a bicycle manufacturing worker, I want to know what parts/materials are needed and availability to make a bicycle, so that I can assemble a bicycle without any confusion.	Create UI	15/02/2021	17/02/2021	2	Daniel Gauvin	Complete			
			Do the backend for UI to interact with the BikeParts database	20/02/2021	23/02/2021	3	Michael Lee	Complete	The "Add Bicycle" button now has functionalities		
			Do the backend to update that the status of a bicycle is completed and update the quantity of parts left	20/02/2021	23/02/2021	3	Celia Cai	Complete	Update the quantity of parts left will be for Sprint 3		
			Do the backend to display material and parts availability (No need to show quantity, simply available or not)	20/02/2021	23/02/2021	3	Kelvin Chow Wan Chuen	Complete			
	[9] The system must generate logs and audit trails for the sake of debugging and accountability.	[9.1] As an IT personal, I want to see logs of the system, so that I can monitor activity in the system.	Create the logs	12/02/2021	17/02/2021	5	Piravien Suntharalingam	Complete	Complete, but we need to add the log command everytime there's a new page		
3	[3] The system must allow tracking inventory, which contains the numbers of things in the plants available and necessary to create parts and products. The inventory depends on a location, current orders, backlogs, forecast of production, etc.	[3.3] As an inventory person, I want to know the backlog of materials order, so that I can have a clear idea of how many parts will be available in future and what are the pending tasks.	Add a modal (popup) in the inventory page where a backlog table will be in	26/02/2021	28/02/2021	2	Piravien Suntharalingam	Complete			
			In the modal, create 1 backlog tables (materials backlog).	26/02/2021	28/02/2021	2	Piravien Suntharalingam	Complete			
			Create a database table for orders	28/02/2021	03/03/2021	3	Piravien Suntharalingam	Complete			
			Create seeds for the material and parts list	14/03/2021	16/03/2021	2	Piravien Suntharalingam	Complete			
			Research on bike materials and parts	26/02/2021	26/02/2021	1	Armando Mancino	Complete			
			Fetch all backlog parts order and display it on the backlog table	26/02/2021	28/02/2021	2	Piravien Suntharalingam	Complete			
		[3.4] As a bicycle manufacturing worker, I want to know the deadline for backlog materials order, so that I can efficiently organize bicycle productions.	Add a modal (popup) in the Job page where a backlog table will be in	26/02/2021	26/03/2021	1	Muhammad Shah Newaz	Complete			
			In the modal, create 1 backlog tables (materials backlog).	26/03/2021	27/03/2021	2	Muhammad Shah Newaz	Complete			
			Fetch the all backlog parts order and display it on the backlog table	26/02/2021	26/03/2021	1	Muhammad Shah Newaz	Complete			
		[3.5] As an inventory person, I want to know when the next bicycle materials will be available if there are none in stock, so that I know when the purchase of materials can be made from the vendor.	Add a "estimated arrival date" column in the backlog table	01/03/2021	01/03/2021	1	Piravien Suntharalingam	Complete			
			Fetch the estimated arrival date values and display it on the column	01/03/2021	01/03/2021	1	Piravien Suntharalingam	Complete			

Sprint #	Min Requirement / Category	User Story / Sub-Category	Task Description	Start Date	End Date	Duration (Days)	Assignee(s)	Status	Comments		Status Legend
		[3.6] As an inventory person I want to know the amount of items available in inventory so that I can have a minimum and maximum ordering level.	Add color to a cell to indicate when a certain part or material is low on quantity (Red = Low quantity, Green = Good quantity)	02/03/2021	03/03/2021	2	Michael Lee	Complete			
		[3.7] As a shipping clerk, I want to be able mark backlog orders as received, so that the inventory person knows when the backlog orders have arrived.	Create a UI (page) for the shipping clerk	09/03/2021	10/03/2021	2	Michael Lee	Complete			
			Create a backlog order table in the shipping clerk page (add a button that indicates when a order has arrived)	09/03/2021	10/03/2021	2	Michael Lee	Complete			
			Fetch the data to populate the backlog order table	15/03/2021	15/03/2021	1	Michael Lee	Complete			
			Do the backend so that when the button that indicates when a order has arrived is clicked, it updates in the inventory page's material or parts tables and the backlog table	15/03/2021	15/03/2021	1	Michael Lee	Complete			
			Add default values to populate orders table	15/03/2021	15/03/2021	1	Michael Lee	Complete			
	[4] The system must allow defining, ordering, and tracking raw material and final products. Possibly, it should allow optimising production (use of machines, time of use, etc.	[4.1] As the inventory person, I want to be able to define and track raw material and final products, so that I can make a list of items I need to build bicycles and keep track of finished bicycles.	Add a completed bicycle, parts and materials table	03/03/2021	05/03/2021	2	Muhammad Shah Newaz	Complete			
			Interact with database to pull values from appropriate tables	05/03/2021	06/03/2021	2	Michael Lee	Complete			
		[4.2] As the inventory person, I want to be able to preorder bicycle materials if there is no stock available, so that I can receive the parts as soon as possible.	Create UI for ordering parts and materials	06/03/2021	08/03/2021	3	Daniel Gauvin	Complete			
			Do the backend to handle the form	08/03/2021	10/03/2021	3	Daniel Gauvin	Complete			
		[4.3] As an inventory guy, I want to add the amount of completed bicycles, so that customers can know how many bicycles are available.	Add button that will update completed bicycles table (eg. "Add bicycle" button with form)	08/03/2021	08/03/2021	1	Muhammad Shah Newaz	Complete			
	[6] The system can connect to production machinery via different communication modes, including but not limited to Web services, COM ports, and CSV/XML format files.	[6.1] As a manufacturing worker, I want to be able to see the status of all the manufacturing machines from the ERP Interface, so that I don't have to check each machine individually.	Create a manufacturing machine table in a "Machine" page (making sure to have a status column)	04/03/2021	07/03/2021	3	Armando Mancino, Pasha Pishdad, Kelvin Chow Wan Chuen	Complete			
			Create a manufacturing machine database	04/03/2021	07/03/2021	3	Armando Mancino, Pasha Pishdad, Kelvin Chow Wan Chuen	Complete			
			Interact with the database so that when the status is updated, it is reflected in a manufacturing machine table	04/03/2021	07/03/2021	3	Armando Mancino, Pasha Pishdad, Kelvin Chow Wan Chuen	Complete			

Sprint #	Min Requirement / Category	User Story / Sub-Category	Task Description	Start Date	End Date	Duration (Days)	Assignee(s)	Status	Comments		Status Legend
			Discuss with the team how the machines will work; As in how the machines will fit into the production flow (e.g. do we have different machines for each "stage" of the bike building process? or do each machine do the whole building process? When a bike is completed by the machine, what happens after that; does the manufacturer person move it to the completed pile? Or does the machien do it? These are just example questions but basically, need to figure out where the machines fit into this	04/03/2021	07/03/2021		Armando Mancino, Pasha Pishdad, Kelvin Chow Wan Chuen	Complete			
			Add a manufacturer worker user	04/03/2021	07/03/2021		Kelvin Chow Wan Chuen	Complete			
	[10] The system can generate documents, like reports, in different formats, including MS Excel spreadsheets and Adobe PDF. It can also link to some Cloud storage service, e.g., Google Drive, to push/pull documents there.	[10.1] As an accountant, I want to see sales reports, so that I can plan the sales reports.	Create an accountant view/UI	10/03/2021	14/03/2021	4	Celia Cai	Complete			
			Create a sales table	10/03/2021	14/03/2021	4	Celia Cai	Complete			
			Create a sales database	10/03/2021	14/03/2021	4	Celia Cai	Complete			
			Make the interaction between the table and database	10/03/2021	14/03/2021	4	Celia Cai	Complete			
		[10.2] As an accountant, I want to export sales reports in PDF or MS Excel format, so that reports can be easily analyzed and printed.	Create the function that would export the table as a PDF or excel	10/03/2021	14/03/2021	4	Julien Xu	Complete	CSV complete, waiting on PDF		
	[13] Sensitive data must be encrypted (credential details, personal information), so in case of a data leak, the leaked information can not be traced back to any identity or user.	[13.1] As a user, I want the system to automatically log me out after a time of inactivity so that no one who doesn't have the authorization will be able to access the information that i have access to if I forget to log out.	Create the function that would automatically log out a user after a certain time	01/03/2021	01/03/2021	1	Piravien Suntharalingam	Complete			
	N/A	N/A	Add restriction to "Jobs" and "Assembly" page (will need to create a manufacturer worker). (At the moment, the IT person can see those pages, but they should not be able to view them)	17/03/2021	17/03/2021	1	Michael Lee	Complete			
			Add comments to our code	26/02/2021	17/03/2021	19	Everyone	Complete			
			Look into static analysis tool for code quality				Pasha Pishdad, Piravien Suntharalingam	Complete			
			Look into code coverage	12/03/2021	15/03/2021	3	Julien Xu	Complete			
			Make the relationship database tables and additional database tables (eg. Material_Order)	13/03/2021	16/03/2021	3	Daniel Gauvin	Complete			

Sprint #	Min Requirement / Category	User Story / Sub-Category	Task Description	Start Date	End Date	Duration (Days)	Assignee(s)	Status	Comments		Status Legend
			Add additional attributes to the existing table (eg. add "price" in the table containing bicycles, add "cost" to materials	13/03/2021	15/03/2021	2	Piravien Suntharalingam	Complete			
4	[5] The system must allow following all and any cost: Accounts Payable, Accounts Receivable, and Cost/Charge Number.	[5.1] As an accountant, I want to be able to track payments to others and payments received from others, so that I can produce a financial report.	Grab data from sales and orders tables to compile total numbers (eg. Total profit, total cost, total sales, etc).	03/04/2021	05/04/2021	2	Celia Cai	Complete			
			Display total sales and purchases in a graphical manner.	05/04/2021	06/04/2021	1	Julien Xu	Complete			
			Export graphs to pdf (or jpeg).	05/04/2021	06/04/2021	1	Julien Xu	Complete			
	[7] The system should track quality data. It needs to support manually triggered rules and-or system generated rules.	[7.1] As an accountant, I want to receive confirmation email for completed order payment, so that I can be sure my payment was received by the recipient (bicycle manufacturing company).	Implement email system for accounting [refer to min req 17].	02/04/2021	05/04/2021	3	Piravien Suntharalingam	Complete			
			Send automatic email to all accountants when an order is placed or a bicycle purchase is completed.	02/04/2021	05/04/2021	3	Piravien Suntharalingam	Complete			
			Email should appear in accountants' inboxes.	02/04/2021	05/04/2021	3	Piravien Suntharalingam	Complete			
	[17] The system sends e-mails to certain roles according to certain rules depending on events occurring within the system, e.g., production stopped.	[17.1] As a product manager, I want to receive email for the bicycle production disruption, so that I can know the different hindrances of the production team and take necessary actions.	Implement email system for the product manager.	02/04/2021	05/04/2021	3	Piravien Suntharalingam	Complete			
			An email is automatically sent when the status of a machine is found to be offline.	02/04/2021	05/04/2021	3	Piravien Suntharalingam	Complete			
			Email should appear in product manager's inbox.	02/04/2021	05/04/2021	3	Piravien Suntharalingam	Complete			
		[17.2] As a product manager, I would like to receive a notification or notice when certain sales surpass a large amount so that I am aware of a big order.	Implement email system for the product manager.	02/04/2021	05/04/2021	3	Piravien Suntharalingam	Complete			
			Email should appear in product manager's inbox.	02/04/2021	05/04/2021	3	Piravien Suntharalingam	Complete			
		[17.3] As an inventory manager, I would like to receive a notification or notice when parts and/or materials quantity are low, so that I know when to order more.	Implement email system for sales manager.	02/04/2021	05/04/2021	3	Piravien Suntharalingam	Complete			
			An email is automatically sent when the parts and/or materials are found to be low.	02/04/2021	05/04/2021	3	Piravien Suntharalingam	Complete			
			Email should appear in sale's inbox.	02/04/2021	05/04/2021	3	Piravien Suntharalingam	Complete			
	Production manager	Add/edit bike parts	Make sure that only the Production Manager can Add/Edit Bikes, Parts, Materials, except for modifying quantity.	05/04/2021	06/04/2021	1	Daniel Gauvin, Michael Lee	Complete			

Sprint #	Min Requirement / Category	User Story / Sub-Category	Task Description	Start Date	End Date	Duration (Days)	Assignee(s)	Status	Comments		Status Legend
		Creating bicycles	For creating bikes, we need to have options to specify which parts make the bicycle. Each bicycle should have 1 part per category. Click HERE to see the google sheet for the part categories. Categories are highlighted in BLUE. For the Parts, we do not need to have material categories. (This implies that we need to add a CATEGORY attribute to the parts table)	05/04/2021	06/04/2021		Daniel Gauvin, 1 Michael Lee	Complete			
	Inventory person	Inventory page	The inventory guy would have a similar page to the current inventory page but would only be able to view the order backlog	05/04/2021	07/04/2021		Daniel Gauvin, 2 Michael Lee	Complete			
		Material ordering	For Material Ordering, we need to add the ability to remove individual groups (for now we can only add and not remove) (NOT PRIORITY)	05/04/2021	07/04/2021		Daniel Gauvin, 2 Michael Lee	Complete	Place an order x Add Material(+) Place Order Material Name Quantity -- SELECT MATERIAL - -- SELECT MATERIAL -		
	IT User	Logs	Add Logs everywhere	07/04/2021	07/04/2021		Piravien 1 Suntharalingam	Complete			
		User types	Make sure we add the correct user types to the create user form and add the appropriate navbar links (currently we have floor worker AND manufacturer worker, should only have 1 of them)	07/04/2021	07/04/2021		Piravien 1 Suntharalingam	Complete	-- SELECT USER TYPE -- IT Department Human Resources (HR) Floor Worker Shipping Department Inventory Manufacturer Worker Accountant		
			Remove floor worker + HR	05/04/2021	05/04/2021		Piravien Suntharalingam	Complete			
			Add sales person	07/04/2021	07/04/2021		Piravien 1 Suntharalingam	Complete			
	Manufacturer worker	Jobs	Add a proper "Create job" UI that will allow the user that creates the job to define the quantity and bike type	27/03/2021	28/03/2021		Armando Mancino 1	Complete			
			Separate jobs that QUEUED/IN PROGRESS from jobs that are completed	01/04/2021	02/04/2021		Armando Mancino 1	Complete			
			Next to each job, there is a column that shows the quality of the job - under inspection, passed, failed, etc	03/04/2021	04/04/2021		Armando Mancino 1	Complete			
		Assembly page	Each bike on the jobs page should be clickable and then lead you to the assembly page where you can see a breakdown of all of the parts and mats. For now, each job displays only the bike type but we can add a "Bike name" attribute to the bikes table and make that clickable instead	03/04/2021	04/04/2021		Armando Mancino 1	Complete			

Sprint #	Min Requirement / Category	User Story / Sub-Category	Task Description	Start Date	End Date	Duration (Days)	Assignee(s)	Status	Comments		Status Legend
			For the Assembly page, we should have an ACCORDION Component for each part. The accordion will open up to display all the materials needed for the specific part.	04/04/2021	06/04/2021	2	Armando Mancino	Complete			
	Sales		Create a sales UI (Include: "Add sales" button, a table containing the list of all sales) - Talk to Celia for more information about sales database table	03/04/2021	05/04/2021	2	Muhammad Shah Newaz	Complete			
			Add backend to the "Add sales" button and to populate the list of sales table	03/04/2021	05/04/2021	2	Muhammad Shah Newaz	Complete			
	N/A	N/A	Migrate system to a cloud-based service.	27/03/2021	01/04/2021		Michael lee	Complete			
			Add comments to our code	18/03/2021	07/04/2021	20	Everyone	Complete			
			Add functionality to assign jobs to users	27/03/2021	01/04/2021	5	Michael Lee	Complete			
5	[11] The system should follow "good" UI principles, like help, tooltips, etc.	[11.1] As an ERP user, I want to interact with help buttons, so that I can navigate the system with ease.	Add help buttons to User Management page.	12/04/2021	13/04/2021	1	Pasha Pishdad, Piravien Suntharalingam				
			Add help buttons to orders page.	12/04/2021	13/04/2021	1	Pasha Pishdad, Piravien Suntharalingam				
			Add help buttons to Sales page.	12/04/2021	13/04/2021	1	Pasha Pishdad, Piravien Suntharalingam				
			Add help buttons to Accounting page.	12/04/2021	13/04/2021	1	Pasha Pishdad, Piravien Suntharalingam				
	Transport planning/Shipping	[T.1] As a shipping clerk, I want to be able to choose the transportation method that is used, so that the sale can be delivered within the required time frame.	Modify the sales table to take into account transportation method.	14/04/2021	15/04/2021	1	Julien Xu, Muhammad Shah Newaz				
			In the "Add sales" modal, add a new input field for transportation method.	14/04/2021	15/04/2021	1	Julien Xu, Muhammad Shah Newaz				
		[T.2] As a shipping clerk, I want to know when the shipment of bicycle sales encounters delivery issues, so that I know when to take actions to ensure proper arrival of bike sales.	Modify the sales table to take into account transportation status (eg. Issue, Complete, In Progress, etc).	14/04/2021	15/04/2021	1	Kelvin Chow Wan Chuen, Daniel Gauvin				
			Implement email notification when transportation status is equal to "Issue".	14/04/2021	15/04/2021	2	Kelvin Chow Wan Chuen, Daniel Gauvin				

Sprint #	Min Requirement / Category	User Story / Sub-Category	Task Description	Start Date	End Date	Duration (Days)	Assignee(s)	Status	Comments		Status Legend
	ERP User	[NMR.1] As an ERP user, I want to be able to search for specific items so that it is much more efficient to find items.	Create a search bar in the inventory, jobs and assembly page to find specific items and return them.	13/04/2021	16/04/2021	3	Kelvin Chow Wan Chuen, Daniel Gauvin				
		[NMR.2] As an ERP user, I would like to write and receive messages from other users, so that I can effectively communicate with my coworkers.	Create a messaging chat box that is always present.	15/04/2021	17/04/2021	2	Celia Cai, Michael Lee, Armando Mancino				
			Add a "write" text box.	15/04/2021	16/04/2021	1	Celia Cai, Michael Lee, Armando Mancino				
			Add a message view box to display messages and from which use.	15/04/2021	16/04/2021	1	Celia Cai, Michael Lee, Armando Mancino				
			Add a send message button.	15/04/2021	16/04/2021	1	Celia Cai, Michael Lee, Armando Mancino				
			Implement a message log history.	15/04/2021	18/04/2021	3	Celia Cai, Michael Lee, Armando Mancino				
	Post-Mortem			08/04/2021	20/04/2020	12	Everyone				
	All Deliverables			08/04/2021	20/04/2020	12	Everyone				
	Self-Assessment			08/04/2021	20/04/2020	12	Everyone				

Sprint #	Acceptance Tests	Status (Pass or Fail)	User Story	Status Legend
2	Given my role as inventory person, when I enter a quantity of a listed part and click submit, then the submission is properly handled.	Pass	3.1	Pass
	Given my role as a bicycle manufacturing worker, when I view a bicycle item, then I see all the bicycle parts.	Pass	3.2	Fail
	Given my role as a manufacturing worker, when I click on the "list of all available materials" button, I see an up to date list of materials.	Pass	1.1	
	Given my role as an inventory person, when I click "add bicycles" on the inventory UI, my feedback gets successfully submitted and updated.	Pass	2.1	
	Given my role as an IT person, when I do any action on the system, then that action is logged on the screen.	Pass	9.1	
	Given my role as an IT person, when an action is logged, then it is logged in a table format.	Pass	9.1	
3	Given my role as a an inventory person, when I click on the "backlog" on the materials page, I will see a list of materials that are ordered.	Pass	3.3	
	Given my role as an inventory person, on the backlog, when i see the backlog, I also want to see the deadline for the order	Pass	3.5	
	Given that I am an ERP user, when I check the inventory, there should be maximum and a minimum ordering level so that the inventory isnt over or under stocked.	Pass	3.6	
	Given my role in the production team, when I click on "raw materials", list of materials should appear.	Pass	4.1	
	Given my role as admin, in the inventory tab, next to every item, there should be an order button to order the materials needed	Pass	4.2
