

Bug name	Bug description	Expected behavior	Issue #	Person that discovered the bug	Assignee	Severity	Date discovered	Status	Comment
Bootstrap version change code break	The bootstrap version used in the project was changed to version 4.6.0 The version used to be version 5.0 but since it was a beta version, it was decided that we should move to a more stable version This means Sprint 1 features need to be re-coded with bootstrap 4.6.0 CSS	Some buttons are now misplaced and warped + some javascript functionality from bootstrap 5 no longer works on bootstrap 4 (modals)	#63	Piravien Suntharalingam	Piravien Suntharalingam	Medium	Feb 23rd 2021	Fixed	Converted Bootstrap 5 CSS to bootstrap 4.6.x
Edit button for parts returns 404 Not Found	Edit button does not update the target part.	The user should be redirected to the inventory page with the updated part.	#69	Michael Lee	Michael Lee	Low	Feb 24rd 2021	Fixed	Removed extra double quotes symbol causing edit button to break.
Files that should be pdf are in excel doc	Documents are in excel	Document should be in pdf format	#81	Celia Cai	Celia Cai	Low	Feb 24rd 2021	Fixed	
Delete button does not work properly for delete bikes	Delete button does not redirect properly	Redirect to inventory page after deletion	#83	Michael Lee	Michael Lee	Low	Feb 28th 2021	Fixed	Removed extraneous space separating the word "inventory" in the redirect in BikeController.php.
Files that were relevant were deleted	Commit removed documentation files	Commit should change backlogs from page to modal, change the position of the backlog button	#122	Celia Cai	Piravien Suntharalingam	High	March 13th 2021	Fixed	
Bike seeder does not seed properly	Defaults seeder throw query exception	Database should seed BikeSeeder properly	#130	Michael Lee	Michael Lee	Low	March 13th 2021	Fixed	
Bike_Parts_MaterialOrderSeeder won't seed	The file will not perform seeding and throws a target class does not exist error when we do php artisan db:seed	Database should seed Bike_Parts_MaterialOrderSeeder properly	#137	Celia Cai	Celia Cai	High	March 16th 2021	Fixed	The seed file name was Bike_Parts_Material_Order_Seeder. Thus, the seeder class should be named Bike_Parts_Material_Order_Seeder instead of Bike_Parts_MaterialOrderSeeder.
DefaultJobSeeder not working properly	The default job seeder is not working properly and is causing errors.	Database should seed job seeder properly	#141	Piravien Suntharalingam	Piravien Suntharalingam	Medium	March 17th 2021	Fixed	The pivot tables for everything was added but we didn't make the changes for the jobs
Restricts admin from seeing "Jobs" and "Assembly"	Admin has access to "Jobs" and "Assembly" in navbar	Admin should not have access to "Jobs" and "Assembly"	#149	Michael Lee	Michael Lee	low	March 17th 2021	Fixed	Added validation in navbar
Fix failed unit test	There are 6 units tests that fail	They should pass	#150	Michael Lee	Piravien Suntharalingam	Medium	March 17th 2021	Fixed	
Deleting Bikes, Parts or Materials Crashes the WebApp	Need to fix deleting bikes, parts, mats (it currently crashes when you attempt to delete)	Bikes, parts and materials should be properly deleted	#166	Piravien Suntharalingam	Piravien Suntharalingam	High	March 18th, 2021	Fixed	
Creating a Job does not Work	Whenever a user attempts to create a job, they will be redirected to the home page. Once they go back to check the jobs pages, the job they had created will not show up.	The expected behaviour is that a job shows up in the jobs page when it is created	#167	Piravien Suntharalingam	Piravien Suntharalingam	High	March 18th, 2021	Fixed	
App Crashes if all Parts are Deleted	The app crashes if the user attempts to delete all parts from the inventory page	Expected behaviour is that the inventory page does NOT crash when all parts are deleted	#175	Piravien Suntharalingam	Piravien Suntharalingam	Medium	April 2nd, 2021	Fixed	
Some User Types are Undefined and Do Not Appear in User Management	Some of the new user types added show up in the user management page as "Undefined User Type"	No Issue creating user and they are listed with the correct user type on the user management page	#176	Piravien Suntharalingam	Piravien Suntharalingam	High	April 2nd, 2021	Fixed	
"Add a new part" button does not work	When you go on inventory page, click on "Add a new part" and click "create part", it throws an error (see screenshot below).	A new part should be added to the parts table in the inventory page	#197	Celia Cai	Michael Lee	Medium	April 6, 2021	In review	Fix (PR-199): We added category column but the add part didn't take this into consideration. Just added a new field with dropdown of all of the categories
"Edit parts" button does not work	The edit parts button on the inventory page does not properly edit the parts.	The changes should be reflected in the parts table after editing a part.	#211	Celia Cai	Michael Lee	Medium	April 6th, 2021	Fixed
